A BRILLIANT WEDDING .- The New York Star of yesterday says: - "Major General Q. A. Gilmore, of the United States Army, who distinguished himself during the war by his mas-terly engineering before Charleston, was mar-ried in Brooklyn on Wednesday to Miss Laura Bragg, a well-known and accomplished resident of Brooklyn, Rev. Henry Ward Beecher con-ducted the ceremony, which was witnessed by only the immediate relatives and friends of both parties. The bride was magnificently attired. and the gifts from relatives were elegant and tasteful. After the breakfast, at the residence of the bride, in Remsen street, which was superb in its appointments, the bridal pair left for Washington city."

PERSONAL .- Hon. W. E. Chandler has returned to the city, with his family, after a three months campaign of very laborious and efficient service as Secretary of the National Republican Committee. BREVET RANK IN THE ARMY .- The Supreme Court of the United States has before it a case raising for its decision the question of the rank and relative position of brigadier general and brevet brigadier general. The act of March, 1865, gave to all officers not above the rank of brevet brigadier general an increased commutation of rations. Brigadier General Henry J. Hunt, claiming that there was no distinction between the two officers, applied to the pay department for the increase, but was refused, that department deciding that a brigadier general was in rank above a brevet brigadier. The Court of Claims, however, took a different view, holding that, in rank, there is no difference be-tween a brigadier general by brevet and a brig-adier general without a brevet, and gave the in their thrilling feats in mid-air, entitled Flying Bats.

The government claims an appeal, that when the dignity of the two positions is considered, and when it is the everyday practice to promote persons from a brevet rank to full rank, the answer to be given by the court can hardly admit of doubt; and that if Congress had not recognized the difference in rank the words "brigadier general" only would have been used in the act, instead of "brevet brigadier general," the language employed.

CHOLERA IN ST. PETERSBURG .- The Lance innounces that the outbreak of cholera in St Petersburg had so far declined on the 28th of september that after that date daily returns of he progress as the disease were no longer published. The outbreak commenced on the 23d of June, and from that date to the 27th of Septem ber there had occurred 3,413 attacks (2,371 males and 1.042 females,) 1.693 recoveries (1,196 males and 497 females,) and 1,663 deaths (1,141 males and 522 females).

PHILADELPHIA HONORS TO THE MEMORY OF GEN. MEADE.—The citizens of Philadelphia held a meeting yesterday at which an address was adopted expressive of the esteem in which Major General George C. Meade was held by his countrymen and of the sorrow they feel at his loss. General John F. Hartranft, Governorelect, was chairman of the committee through which the address was reported.

Boys .- The number of devils inhabiting the average small boy has never appeared in print, but there are a good many of them. The small boy hurls pieces of rock, chunks of nard earth, and brick bats with vigor, and be keeps at it a long time. A poor, half-starved goat, or a wandering chicken, or the tin guttering on an exposed house, is his favorite target; but he is also pleased at the sound of a clod of earth breaking against the side of a building. He conceals himself in the alleys and behind fences and watches with interest the effect of the hower of missiles which he and his crowd have precipitated into neighboring yards. He likes to knock off a board wherever he can, as high fences are not pleas ant to climb, and they obstruct his view. He can hit a person on the street from a great distance and can enjoy the scene that ensues. He is not afraid of a policeman, because if he were to be arrested wouldn't people say it's a shame to arrest a child like that? He knows all about that preacher Browne who shot a boy who got into a pear tree, and he knows that Browne was nearly mobbed to death. He will steal as much fruit as he can stuff into him next season. see if he doesn't; and he won't let any hens sit in his part of town either. Don't his mother run out and take his part when a mean man takes atter him? Yes, and he shall throw just as many rocks as he pleases, and yell "hoo-ah! hoo-ah!" all day it he wants to; but he will go to heaven when he dies?—Louisville Courier Journal.

WOODBULL AND CLAFLIN IN COURT .- Th examination in the case of Luther C. Challis against Victoria Woodhull, Tennie C. Claffin, Col. Blood, and others, for alleged libel pub lished in Woodhull and Claffin's Weekly, tool place in New York yesterday in the 2d police court. The room was crowded. Among those present were Mrs. Laura Cuppy Smith and Geo. Francis Train. Challis testified to the libel, and stated that he was introduced to Tennie C Claffin at a French ball at the Academy of Music last winter. He denied all charges agains him in the alleged libellous article. Severa witnesses were examined to establish the publi cation by the defendants of the paper contain ing the article referred to. The examination will be resumed to-day.

he germs of two complete sets of teeth exist in both jaws of children and carnivorous animals About the period when the system requires other aliment besides milk, the deciduous or first set are cut. When these are finally shed, the germs of the second that have been lying quiescently several years in children are quickened into activity and soon protrude through the gums. Those are the permanent set. Nature's plan in this arrangement is to meet the expansion of the bones of the face, there being very many more teeth of the second crop, which are also larger, stronger and deeper rooted in the sockets. The law of dention presents a broad field for study.

A CHILD EATEN BY RATS .- An instance of the danger of leaving young children alone oc-curred in Jamaica on Wednesday evening. Mr. The mas Robinson and his wife, living on Prospect street, were absent from their house about an hour engaged in shopping, leaving an infant child asleep in a cradle. During their absence the child was attacked by rats with most hor rible results. One side of his face was badly mutilated, one ear was nearly eaten off, and one eye was entirely destroyed. A physician was immediately called, who gave it as his opinion that the child could not recover from the injuries .- N. Y. World, 8th.

It is stated that the movement was of a serious character. and actively encouraged by the Internationals. Upon discovery of the plot, a large number of persons were arrested, and it was believed that he would-be-insurrectionists had been completely frustrated in their designs.

Women Jurous.-In Wyoming women not only vote, but sit on juries. They are not, however, deprived of other "heaven given rights, o long conceded to them by common consent of all mankind. A woman in that progressive territory being lately obliged to serve on a jury against her will, took her baby along, and the youngster set up such a vigorous protest that the court was fain to excuse the juror from serving. Even in Wyoming the right of taking care of babies is conceded to women as having precedence over that of serving the public.

ELECTION NEWS.

Last Night's Dispatches. MAINE .- At the Kennebec Journal office official returns from 315 towns show a majority for

Grant of 28,325. MARYLAND .- Further returns from counties on the Eastern Shore place beyond a doubt the election of Wilson, dem., in the 1st congressional district by over 500 majority. The detegation stands 4 democrats and 2 republicans. Corrected eturns reduce Greeley's majority in the state to ess than 1,500.

Virginia .- Sixty-eight counties and cities have been heard from, most of them officially. In these the democrats lose 1,730, showing an excess of 15,430 on the side of their losses. This caves only about 3,500 of the conservative majority of 1869 to be overcome in the remaining 34 ounties. If the republicans gain in the same ratio in these counties Grant's majority will be about 3,000. The present estimates elect 4 republicans certainly, viz: Smith, Platt, Stowell. and Thomas, and possibly Sener in the 1st district, who is opposed to Braxton. The conservatives certainly elege Hunton, Harris, White, and

ALABAMA .- Grant carried Alabama by from 1,000 to 6,000. The entire republican state ticket is elected by a small majority. Four republicans, and probably five, are elected to Congress to three democrats. The legislature is in doubt, but four votes will cover the majority either

LOUISIANA .- Returns, mostly unofficial, from forty-four parishes outside of Orleans, give the republicans a net majority of 6,473. The same in 1870 gave a net republican majority of 19,489. The remaining eight parishes in 1870 gave a net democratic majority of 492. The liberal state ticket is undoubtedly elected.

TEXAS.—The elections closed at 5 p. m. yes terday. Returns from the interior are incomplete. The state is largely democratic, with four out of six Congressmen. Galveston elected the democratic county ticket and representa-

ARKANSAS.—The election of Asa Hodges, rep., in the 1st district is conceded, by 2,500 majority. Snyder, rep., in the 2d district, is re-elected by 1,500 majority. Gunter, dem., is elected in the 3d district, by about 2,000 majority. Returns from helf the steering Parton jority. Returns from half the state give Baxter. rep., 2,500 majority. His election is considere certain, as also the entire republican state ticket, with possibly one or two exceptions. The legislature is republican. Missouri.—The three congressional districts in St. Louis county stand thus: 1st. Stannard,

rep., 5,271; Grovenor, lib., 5,129; 2d. Wells, dem., 8,268; Brison, rep., 7,807; 3d. Stone, dem., 5,197; Hilton, rep., 4,859; McBride, ind. dem., 1,592. The Democrat estimates the legislature as follows: Senate-republicans, 13; democrats 18; liberals, 3. House—republicans, 38; demo-crats, 54; independent, 1; undetermined, 12. TENNESSEE .- Full returns from counties out side of East Tennessee, amounting to about one fourth of the state, give Greeley 4,265 majority In the same counties in 1870 Brown, dem., had 9,655 majority. If the democratic loss be no greater in the remainder of the state Greelev's

majority would be about 15,000, but Grant's gains in East Tennessee would probably reduce t to 10,000. The increased vote in the counties beard from over 1870 is about 12,000. Freeman, rep., for Governor was behind Grant, and May nard in East Tennesse and Brown, dem , will probably be elected by a small majority, though Freeman is now about 150 votes ahead. Additional returns make no change in speculations as to the result for Congressmen. INDIANA .- Official returns from seventy-two counties, with reported and estimated majori-

ties from the remaining twenty-two, give Grant 22,104 majority. CALIFORNIA - Complete returns have been received from only seven counties. Grant's ma-jority thus far is 10,851. Clayton, Page, Luttrell, and Houghton are elected to Congress.

THE ELECTION RIOT IN BALTIMORE-Investigation by a Corner's Jury.—The riot which occurred at one of the voting precincts of the sixth ward in Baltimore on Thursday evening was partially investigated by Coroner Sultzer last evening, who held an inquest over the body of the boy Isaac Boss, who was killed by a stray bullet. The American of this morning says:— "All of the witnesses neglected to mention that there was a brisk firing from the party that were standing at the voting window as well as from the men who were standing on the opposite side of the street until this most important fact was brought out by a question asked by one of the jurors. The theory set up by those who charge that the republicans began the riot is that there was an intention on the part of certain colored men to kill a man of their own race named Jonathan Walters, who is an active democratic politician, and that they fired into the crowd for that purpose. From the testimony it would seem that the first shot was fired by a man standing on the opposite side of the street. man standing on the opposite side of the street, in what might be called the 'republican crowd,' as distinguished from the men standing at the window, who constituted the democratic crowd.' After this there was a general exchange of shots, and both parties ran away. Several witnesses testified to having heard colored men make threats against Walters during the after-

A WIPE'S TEN YEARS' SEARCH POR A FAITHLESS HUSBAND.—A German woman applied to Justice Christen in Hoboken yesterday for a warrant for the arrest of Frederick Beemer, a wealthy citizen of Union Hill, whom she accused of bigamy. She deposed that she was married to Beemer in B eslau, Germany, in the spring of 1860. He was then a portrait painter, and he followed his vocation for two years while she lived with him in Frankfort. He eloped with her cousin to the United States. She came to this country, and for ten years searched for her husband. She heard nothing of him, however, until recently, when Mi Beemer, having made a fortune and returned to Europe for a tour of pleasure, was recognized in a picture gallery in Breslau by his wife's brother. Justice Christen granted a warrant for Beemer's arrest.—N: Y. Sun, 8th.

SUIT FOR \$20,000 DAMAGES AGAINST THE B & O. RAILROAD.—Yesterday Charles Welthe, guardian of Mary and Martha Schlyer, aged respectively 10 and 8 years, and children of the late Nicholas Schyler, brought suit in the city court, through his uncle, J. A. L. McClure, esq., against the Baltimore and Ohio railroad comany, alleging the wrongful act, neglect and default of its agents in the running of an engine. by which Nicholas Schyler was, on the 24th of fanuary last, mortally wounded and mangled on Hull street, and claiming \$20,000 damages. The legal instrument set forth also that the children named above were motherless at the time of the killing of their father, and by his death lost their only support .- Baltimore Gazette, 9th.

DEATH PROM GAS PROM A LIME KILN .- Yesterday morning, the workmen at the lime kiln of G. W. Bowen, Lower Canton, found the body of an unknown white man lying on the wall surrounding the kiln. He wore spectacles, and appeared to be about fifty years of age. Justice Swayne, of Baltimore county, was at once no-tified, and Constable August Wise summoned a jury of inquest, who after having jury of inquest, who, after hearing a statement of the case, rendered a verdict that the deceased came to his death accidentally from inhaling the gas of the lime kiln. The name and home of the ill-fated man could not be ascertained and heart and the accidentally from the lime of the ill-fated man could not be ascertained and heart and heart and the acceptance of the lime of the limit and the acceptance of the limit and the limit tained, and he was buried at the expense of the county.-Baltimore Gazette, 9th.

FREEDOM OF THE PRESS IN CHICAGO.-In the supreme court of Illinois, at Chicago, yesterday, Charles L. Wilson, proprietor, and Andrew S. Schuman, editor, of the Chicago Evening Journal, were fined \$100 and \$200 respectively, with costs, for contempt of court, in publishing an editorial commenting upon the court in connection with the Rafferty murder case. The chief justice, in imposing the fines, said the court had no desire to inflict a severe penaity, and that the object of the court would be accomthat the object of the court would be accom-plished if they showed the consequences of the attempt to influence the decision of the case pending in court.

A LORDON Fog.—They had a fog so dense in London on the 22d ult. as to be made the subject of comment in the newspapers. So many cas-ualties occurred that the Pall Mail Gazette ualties occurred that the Pall Mail Gazette gives advice to wayfarers how to conduct themselves so as to guard against "fog accidents." Dear, infirm, very old and very young people are advised to stay at home; and those who get caught in the fog should walk carefully and slowly. Under no circumstances should dangerous crossings be dashed at. Cabmen should halloo before they drive round corners, and it is suggested that bells should be attached to the harness.

TARRED AND FRATHERED.—Mr. C. H. Kelsey, a well-to-do farmer of Huntington, L. I., 32 years old, was on Monday might tarred and feathered by a party of of ten or twelve disguished persons, for persistent and unwelcome attention to a Miss Julia Smith. Kelsey had been revened to ease approxime has fant persons. been warned to cease annoying her, but persisted, with the result stated, N. F. Star, 8th. DRATH FROM STARVATION.—Thomas McCoy, living at No. 12 Wichliffe street, Newark, died on Tuesday evening. He had been insane upon religious matters for some time, and finally took the whim that eating was sinful. He therefore determined to go hungry, and literally starved himself to death. He was 54 years old and leaves a wife and daughter.—N. Y. Star, 8th.

New York, Nov. 9.—A special dispatch from Chicago says the following republican congressmen are elected: 1st district, Rice; 2d, Ward; 3d, Farwell; 4th, Hurlburt; 5th, Burch-

ard; 6th, Hawley; 9th, Burrere; 13th, McNutt; 14th, Cannon; 18th, Clements. The democrats carry the remaining seven districts. The re-publican majority on joint ballot in the legislature is 38. THE PACIFIC STATES. Effect of the Ratiroad Question on the Elections.

SAN FRANCISCO, Nov. 8 - There has been no

attempt thus far to make tables of the election returns in the state. The majorities in Nevada and Oregon are little changed from the first estimates. The result of the election in this state and Nevada is very significant—Coghlan (rep.), the candidate of the railroad monopoly, who is defeated by Luttrell (liberal and democratic candidate), ran 3,698 votes behind his ticket. Page (rep.) another railroad candidate, who is elected, rai behind Grant 4,000 votes. The Central Pacific railroad interest named both these candidates In this city the railroad question was taken entirely out of politics. In Nevada, Kendali who has a good record against the railroad monopoly, although a democrat, is elected while the state gives 2,000 majority for Grant; and J. P. Jones, who is opposed to the railroad monopoly, secures the U. S. Senatorship.

They have another new wrinkle in Boston. The Highland horse railway, a new line which as just been established after much hard fighting in the legislature, has placed upon its routes smoking-cars, which are run every half hour for the accommodation of the lovers of the weed. Such a wrinkle is not destined to be one of old age.

TWO CENTS.

The sick horses to-day, seem to be about the same as yesterday, the bad cases exhibiting no perceptible improvement. Indeed, a few of them are considerably worse. The majority of of the horses of the fire department are slowly improving, although "Tag," of Franklin engine, is worse to day. As he is nearly twenty ears old it is doubtful whether he will recever To the delight of foot-sore and leg-weary pe destrians, twelve street cars, each car drawn by four horses, were put on the avenue line this morning, and of course they were well patron-ized. The horses were not allowed to run more than one trip, and when taken from the care did not seem to be any worse for the work. No horses have died at the stables of the Washing-Mr. J. W. Pennsylvania avenue as may be necessary for them to make connection with their main line at the foot of the Capitol, provided the same is done under the supervision of Inspector Wallace, and that the pavement is relaid by Lewis Clephane at the expense of the company. MANUPACTURE OF IRON LIGHT HOUSES IN WASHINGTON .- Mr. Benjamin Chambers, of this city, has recently (under a contract with the Light House Board) constructed and shipped an tron light house for Mobile Point, the entrance to Mobile Bay. This structure is a tower or truncated pyramid of ten sides, and is thirty feet in height from the ground to the focal plane of the light. Around the lantern is a spacious gallery. The tower is ascended by a circular iron stairway, and there is a watch room immediately under the lantern floor, from which the lantern is reached by a ladder. The total weight of the tower is 30,000 lbs., and the contract price was \$5,000. Previous to shipping, the heavy iron castings were fitted together at Mr. Chamber's shop, corner of 5th and H streets,

and presented a neat yet exceedingly strong ap-pearance, and the officers of the board and others gave the opinion that it would withstand the heaviest gale. This is the second complete light house built here by Mr. Chambers. Owing to the horse disease a large amount of this work had to be carried to the wharf by hand. Mr. C., he month of October, shipped two light house lanterns for the northern lakes, and has now in course of construction three lanterns for the harbor of San Francisco. IMPORTANT TO WASHINGTONIANS .- At No. 633 Lonisiana avenue, Messrs. Tucker & Sherman have, for a few years, been building up quite a trade in doors, sash, blinds and frames, as also marbleized slate mantels. They occupy the en-tire building of four stories, each room being 25 by 90 feet, filled up with stocks of doors and blinds of the best kiln dried material selected for this market. They have every size and style of these articles, including inside shutters, and almost any taste may be suited. In fact, if a general idea of the size and style of the building is given the articles needed can be selected in a few moments. To their stock they have also added a fine collection of marbleized slate man.

of young but experienced business men, who have permanently settled here, and by their fair dealing have made themselves quite popular; and this reputation, gained by keeping the very best articles in their line and selling at the lowest rates, they intend to maintain. RAILEGAD ACCIDENT AT THE RELAY HOUSE. On Thursday night last a western train while passing the Relay House, ran into a passenger car that had been detached from the Washington train for the purpose of connecting with the western train from Baltimore and it was badly wrecked, but fortunately, as there were only a few passengers aboard, none were killed, though they were more or less injured.
